

MOODY SUSAN

well she's been sad cause nothing goes her way
and she's been happy when she gets to play outside all day
and she's been naughty that's when she sports a big bad frown

I'm introduc'in' Moody Susan she is both up and down

and when she's bored all she can do is drool
she plays it cool when she's in an ice cold swimming pool
she's been so silly some say she'll grow up to be a clown

I'm introduc'in' Moody Susan she is both up and down

she gives out love (love love) unconditionally
she is dependable but babies are traditionally
she gets lonely when her baby friends leave town

I'm introduc'in' Moody Susan she is both up and down

she's feeling great then bad again an emotional chameleon
from day to day she can't help change she goes from sad to Zen
but so does Jen and Sven and Ken
everybody's got moody friends

now she's been proud just to be included
she's been ignored that's when she feels so secluded
when she feels blah her favorite color is brown

she's feeling great then bad again an emotional chameleon
from day to day she can't help change she goes from sad to Zen
I forgot to mention my one intention
is just to ask her how she's been
