BANANA BREAD

```
G
banana bread banana bread we can be banana bread
we're not pretty but we're not dead we can be banana bread
G
  you brought us home from the grocery we looked so snappy
put us on the counter top over there we were so happy
then you forgot about us lunch after lunch
now we are a fruit fly covered brown and bummed out bunch but
G
  once upon a time we were so yellow
cheery bright and smiling a bunch of happy fellows
then we got forgotten now it's almost too late
   Α
but you can still make us into something tasty to put on your plate

  me and the boys have been together for so long
we grew up on a banana tree and learned to sing this song
E7
all the young bananas learned it in case they get forgotten
so people don't throw them out just because they look a little bit rotten
